PROHIBIT-ICH

Prevention Of Hypertensive Injury to the Brain by Intensive Treatment in IntraCerebral Haemorrhage

Dear all PROHIBIT-ICH collaborators,
We would like to thank you for your continued support during this challenging time.

WE ARE OPEN TO RECRUITMENT!

- **Total recruitment: 36 participants**
- **Recruitment target: 112 participants**
- **Our Sponsor issued a Re-Open to recruitment confirmation email on July 8th.**
- **GOOD NEWS!** Glasgow & Oxford are our 3rd and 4th sites to reopen! We hope more sites will be able to reopen soon.
- We have more than enough BP kits ready to be used and we're waiting for your sites to recruit participants once more!
- Thank you for sending us your **Section B Restart forms**. Please send us your updated Section B Restart forms once your site is ready to reopen i.e. you have Trust approval if applicable & MRI department approval.

Please continue to keep a **screening log** of potentially eligible participants that you can recruit especially now that many sites are close to reopening.

SPOTLIGHT ON IAIN, OUR RESEARCH FELLOW, WHO IS ALSO A ROWING SENSATION!

Iain had been training hard for the **Oxford-Cambridge Boat Race** all year, but unfortunately the race also fell victim to Covid-19. Because of this, he now has his full attention on PROHIBIT-ICH, so please get recruiting soon so that he has something to do!

KEEP US UPDATED WITH NEWS FROM YOUR SITES!

Please continue to send us any news or updates from your R&D and MRI departments about when recruitment and the postponed 12 month follow up visits can resume.

Please let us know if you experience any difficulties at your site that we may be able to help with.
