Dear all PROHIBIT-ICH collaborators,  
We would like to thank you for your continued support during this challenging time.

## RECRUITMENT PROGRESS

- **Total recruitment: 36 participants**
- **Recruitment target: 112 participants**
- **End of recruitment date: 31/12/2020**
- Recruitment is suspended until further notice due to the limitations created by COVID-19.
- Please keep a screening log of potentially eligible participants for recruitment later or a list of ICH patients if you have staff capacity issues

## MRI SCANS

- Before the 12 month visit, please contact your MRI radiographers to ask if there have been any scanner upgrades and to check that the scan sequences planned are the same as those at baseline.
- Please email [m.dabagh@ucl.ac.uk](mailto:m.dabagh@ucl.ac.uk) to let us know about the scanner upgrades.

## FOLLOW UP VISITS

**3 month follow up visit** – to be done remotely

- 24 hr ABPM should still happen as scheduled. Please contact the Oxford team by email for guidance in advance of the visit.
- For cognitive assessment, use 22 point telephone MoCA instead.

**12 month follow up visit** – all parts of the visit are postponed

- The visit should happen as close as possible to the scheduled visit, once restrictions are lifted.
- Please delay eCRF completion until then.

Please have a read through the **Contingency Plan** for further details

## COVID-19 RELATED REQUESTS

- We would be grateful if you could send us feedback about how your Stroke Departments have been affected by the pandemic.
- Please send us any news or updates from your R&D and MRI departments about when recruitment and 12 month follow up visits can resume.

Please let us know if you experience any difficulties at your site that we may be able to help with.  
Stay in touch and stay safe everyone!

Kind regards,

Maja Dabagh
