

Dear all PROHIBIT-ICH collaborators,
We would like to thank you for your continued support during this challenging time.

RECRUITMENT PROGRESS

- Total recruitment: 37 participants
- Recruitment target: 112 participants
- Our Sponsor issued a Re-Open to recruitment confirmation email on July 8th
- 5 out of 12 sites have reopened so far.
- We have more than enough BP kits ready to be used and we're waiting for your sites to recruit participants once more!

12 MONTH VISITS SUCCESS!

Well done to the following teams:

- Rita Ghatala & the St George's team (Sept 24th)
- Nina Francia & the UCLH team (Sept 17th)
- Allan Macrauld & the Edinburgh team (Sept 17th)
- Angela Welch & the Glasgow team (Aug 7th)

Amazing work everyone!

We are looking forward to receiving news of the completion of postponed 12 month follow up visits from other sites!

TELECONFERENCES & TIPS FOR REOPENING SITES

- The next teleconference will be held on Tuesday 13th October at 1.30 pm. An invite email was sent out this week. We look forward to hearing from you!
- Please can sites that have not reopened yet contact their MRI & R&D departments to request reopening of the trial.
- Maja is happy to help and can give advice on how to resolve problems.
- A weekly progress table will be made.

Please continue to keep a **screening log** of eligible participants that you can recruit for discussion at the October 13th teleconference & November Steering Committee meeting

TOP TIPS FOR RECRUITING NEW PARTICIPANTS

- There is no time limit for recruitment – you can recruit participants at any time after an ICH, e.g. in follow up clinics and we accept all discharge destinations.
- You do not need to wait for patients to be close to a hospital discharge date. Patients can be recruited as soon as they are neurologically stable.
- Please discuss with us early if you have any doubts about whether a potential participant can participate or not. *We're always happy to help!*

Please let us know if you experience any difficulties at your site that we may be able to help with.
