

# Programme

08.15	Registration opens	
09.00	<b>Welcome</b>	
	<p>Professor Alastair Buchan, Dean of the Medical School and Head of the Medical Sciences Division</p> <p>Professor Christopher Kennard, Chair of the Neuroscience Strategic Oversight Committee</p>	
	<b>Session 1</b>	
	Chair: Professor Stephanie Cragg, Dept of Physiology, Anatomy & Genetics	
09.10	Victimization and depression: Can genetically informative research designs help us to understand environmental risk?	Associate Professor Lucy Bowes, Department of Experimental Psychology
09.30	Academic drug discovery: from identification of a lithium-mimetic to studies in man'	Associate Professor Grant Churchill, Department of Pharmacology
09.50	Imaging pain, analgesia and altered states of consciousness	Professor Irene Tracey, Nuffield Department of Clinical Neurosciences
10.10	Neural strategies for compensating for hearing loss	Professor Andrew King, Department of Physiology, Anatomy & Genetics
10.30	<b>Coffee</b>	
	<b>Session 2</b>	
	Chair: Professor Anke Ehlers, Department of Experimental Psychology	
11.30	Stimulating recovery after stroke	Professor Heidi Johansen-Berg, Nuffield Department of Clinical Neurosciences
11.50	Mindfulness-based cognitive therapy: A promising approach to depression across the life span.	Professor Willem Kuyken, Department of Psychiatry
12.10	High-resolution in vivo imaging of human retina: A window of opportunity for visual neuroscience	Associate Professor Hannah Smithson, Department of Experimental Psychology

12.30	<b>Lunch</b>	
	Lunchtime workshops at 13.00 (by prior registration only):	
	<ul style="list-style-type: none"> <li>• <b>Title:</b> Text</li> <li>• <b>Title:</b> Text</li> </ul>	
	<b>Session 3</b>	
	Chair: Professor John Jefferys, Department of Pharmacology	
14.00	A novel strategy for silencing neurotransmission at genetically-defined synapses	Dr Zahid Padamsey, Department of Pharmacology
14.20	Characterising cognitive-emotional mechanisms linking sleep disturbance and mental health	Dr Simon Kyle, Nuffield Department of Clinical Neurosciences
14.40	<b>Coffee</b>	
	<b>Session 4</b>	
	Chair: Professor Richard Wade-Martins, Dept of Physiology, Anatomy & Genetics	
15.35	Metacognitive regulation of decision making and learning	Professor Nick Yeung, Department of Experimental Psychology
15.55	Personalised medicine for neurological disease	Professor Matthew Wood, Department of Physiology, Anatomy & Genetics
16.15	Neuroscience and Ethics: The Oxford Model	Professor Ilna Singh, Department of Psychiatry
16.35	<b>Awards Presentation</b>	
16.40	<b>Guest Lecture:</b> <b>The Hippocampal Cognitive Map: Past, Present and Future</b> Professor John O'Keefe, Institute of Cognitive Neuroscience, UCL	
17.30	<b>Drinks Reception</b>
