

## 8<sup>th</sup> Annual Oxford Neuroscience Symposium 22 March 2017

*Mathematical Institute, Andrew Wiles Building, University of Oxford*

08.15	<b>Registration opens</b>
09.00	<b>Welcome</b> Professor Alastair Buchan, Head of Medical Sciences Division and Dean of the Medical School Professor Kia Nobre, Chair Oxford Neuroscience Strategy Committee
09.10	<b>Gene regulatory networks underlying human neural induction</b> Professor Noel Buckley, Department of Psychiatry
09.30	<b>How to set your circadian clock</b> Dr Aarti Jagannath, Nuffield Department of Clinical Neurosciences
09.50	<b>An interoceptive account of ill-health</b> Dr Geoff Bird, Department of Experimental Psychology
10.10	<b>Temporal coordination of cortical neuronal activity by two classes of subcortical GABAergic projection neurons</b> Dr Tim Viney, Department of Pharmacology
10.30	<b>Coffee</b>
11.30	<b>Cortical layer 6b neurons selectively innervate higher order nuclei in the thalamus</b> Dr Anna Hoerder-Suabedissen, Department of Physiology Anatomy and Genetics
11.50	<b>It's all in your head: How we construct the sensation of pain</b> Associate Professor Katja Wiech, Nuffield Department of Clinical Neurosciences
12.10	<b>Using intergroup contact to promote social integration: From neighbourhoods to neurones?</b> Professor Miles Hewstone, Department of Experimental Psychology
12.30	<b>Lunch</b>
14.00	<b>Neural circuitry coordinating male copulation</b> Professor Stephen Goodwin, Department of Physiology Anatomy and Genetics
14.20	<b>Unravelling the heterogeneity of multiple sclerosis with metabolomics</b> Professor Daniel Anthony, Department of Pharmacology
14.40	<b>Coffee</b>
15.40	<b>Therapeutically-relevant immunology in autoimmune neurological disease</b> Dr Sarosh Irani, Nuffield Department of Clinical Neurosciences
16.00	<b>The crisis in adolescent mental health- is the answer in schools?</b> Associate Professor Mina Fazel, Department of Psychiatry
16.20	<b>Awards Presentation</b>
16.30	<b>Guest Lecture - Ways of Thinking: from Crows to Children and Back Again</b> Nicola Clayton FRS, Professor of Comparative Cognition, Department of Psychology, University of Cambridge
17.30	<b>Drinks Reception</b>
